UMC's Hannah receives award

By Elizabeth Tollefson on Monday, July 18, 2005

Steve Hannah, technology consultant in the UMC Instructional Technology Center, has received a Master of Science degree in Applied Information Management (AIM) from the University of Oregon (UO).

The degree, awarded by the UO Graduate School, offers innovative study in management education as an alternative to the traditional Master of Business Administration or a master's degree in computer science." Hannah is also a recipient of the 2005 AIM Director's Capstone Recognition Award for his thesis "Sorting Out Card Sorting: Comparing Methods for Information Architects, Usability Engineers, and Other Practitioners." The full text of the paper is available online.

Hannah began working at the Red River Trade Corridor on the UMC campus in 1998 and earned his undergraduate degree from UMC in 1999.
